

APPLICATION TABLES

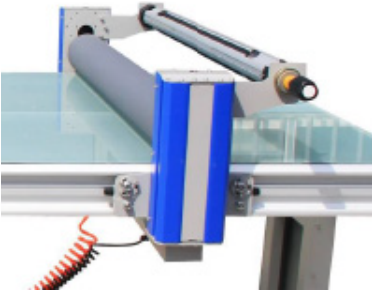

Finishing perfected

APPLICATION TABLES

Professional wide format application tables are designed to meet the demands of every finishing departments expectations.

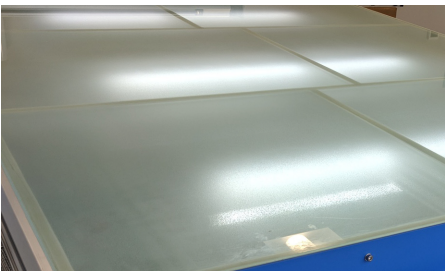

Advantages

- Easy grip gantry
- Adjustable feed roller for application tape, adhesives etc.
- Push button roller up/down control

- Roll holder both rear mounted and table top mounted

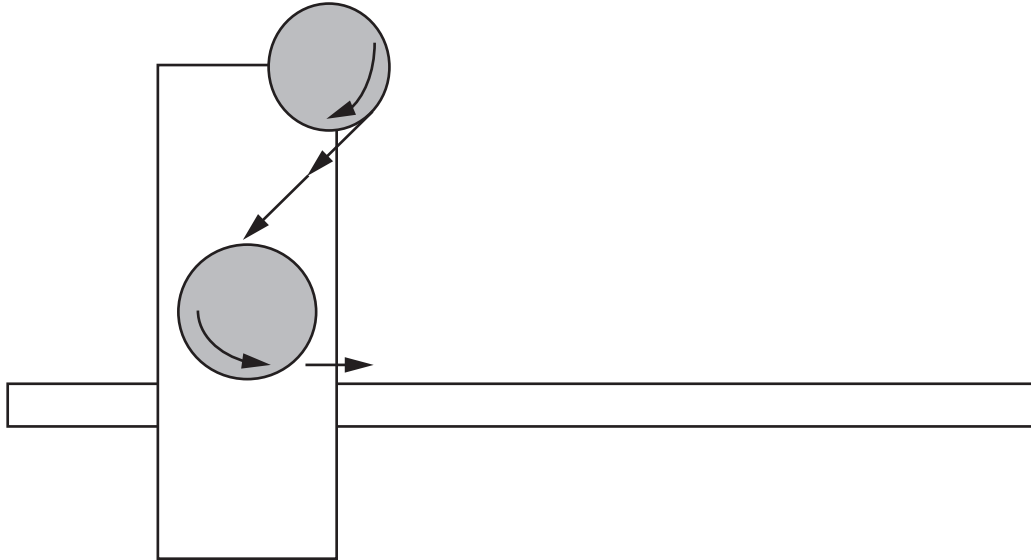

- Low light LED
- Included self-Healing clear cutting matt
- Air compressor

Vision Sign Tool application table is designed for users with very little experience to professionally mount graphics such as signs tradeshow graphics, vinyl, application tape, POP displays, posters, mounting adhesives and clear films.

Without taking up too much need space in your finishing department, It's no wonder that Vision Sign Tools application tables are a popular choice for both new and experienced professional finishing craftsmen.
